Rifki Prakasya | Rifki Prakasya

SUMMARY

Mathematics graduate combining a strong foundation in quantitative problem-solving skills, statistical knowledge, and programming. Proficient in designing data extraction frameworks and data processing solutions with hands-on exposure to data analytics, data science, and AI engineering techniques through independent learning, academic project, and internship. Eager to leverage mathematical concepts in data, AI, and automation opportunities to drive an impactful business and technological outcomes.

EDUCATION

Universitas Indonesia | Depok, Indonesia — Aug 2021 – Jul 2025
Undergraduate Study Program of Mathematics
- GPA: 3.81/4.00
- Relevant Coursework: Algorithm and Programming, Linear Algebra, Calculus, Mathematical Statistics, Data Structure, Data Science, Operational Research, Web Mining.

WORK EXPERIENCES

AI Engineer | Pusbang Talenta Digital, Kemkomdigi — Nov 2025 – May 2026
Internship
- Architected a high-quality text corpus by engineering a specialized crawling-scraping engine for Indonesian health-domain websites, successfully harvesting and processing over 13M+ tokens.
- Designed an independent research pipeline for Continued Pre-Training (CPT) on open-weight LLMs to build a personalized learning content generator for Sekolah Rakyat students.
- Developed an end-to-end data pipeline using Playwright to curate and extract content from online gambling websites.
- Established ground-truth labels for online gambling classification on inner text of 4.000+ websites dataset.
- Created complex algorithmic coding challenges and multiple choice assessments for intermediate and advanced level about deep learning and LLM.

Computer Lab Assistant | Math Department, UI — Aug 2023 – Dec 2024
Part-time
Assistant for courses: (1) Algorithm and Programming, (2) Data Science
- Mentored 40+ students in mastering fundamental programming logic in Python.
- Facilitated practicum session for 40+ students in end-to-end data science workflows, including data manipulation, visualization, classical machine learning algorithms, and deep learning architectures in Python.
- Conducted technical code reviews, designing and evaluating practicum assignments to enforce student's coding practices and problem-solving skills.
- Collaborated on the version-controlled development of practicum modules using Git and GitHub Pages.

Teaching Assistant | Math Department, UI — Aug 2023 – Dec 2023
Part-time
Assistant for course: Real Analysis 1
- Developed problem sets and comprehensive solution materials to support students' understanding of key topics in real analysis 1.
- Conducted routine interactive assistance sessions for 40+ students.
- Assisted the lecturer in grading students' assignments.

ORGANIZATIONAL OR VOLUNTEERING EXPERIENCES

LOGIKA UI 2024 | Depok, Indonesia — Aug 2023 – Feb 2024
Staff of Registration Division
- Managed and recapped $\pm$200 participant registration data on a weekly basis to ensure accuracy and completeness.
- Served as the contact person for one of the competition branches, providing assistance and information to participants.

PRISMA X | Depok, Indonesia — Jul 2022 – Nov 2022
Deputy Coordinator of Documentation and Design Division
- Collaborated with the General Secretary, Project Officer, and Head Coordinator of Documentation and Design Division to design and manage the publication timeline.
- Coordinated a team of 6 staff members in planning and producing over 40 publication materials across 3 events.

HMD Matematika | Depok, Indonesia — Mar 2022 – Feb 2023
Staff of Multimedia, Entertainment, and Design Bureau
- Created various visual materials for Fundraising Bureau, such as fundraising catalogs and promotional content.
- Developed publication materials for Exploration, Regeneration, and Internal Bureau's projects.
- Contributed in Multimedia, Entertainment, and Design Bureau's e-magazine work program.

PROJECTS

Topic-Level Sentiment Analysis of Shopee App User Reviews on Google Play Apr 2024 – Jun 2024
Course Project

- Collected and processed Shopee App's 6,997 user reviews from Google Play.
- Implemented transfer learning on IndoBERT model for sentiment classification, achieving 81% accuracy on test data.
- Implemented TSVD for dimensional reduction and Fuzzy C-Means (FCM) clustering method on CLS vector embedding results from IndoBERT model for topic detection, identifying 4 major discussion topics.
- Combined sentiment and topic results to provide insights for evaluating user satisfaction and platform performance.

CERTIFICATIONS

Certified International Specialist in Data Engineering (Foundation) | PASAS Institute Jan 2026 – Jan 2029

Associate Data Scientist | BNSP Dec 2025 – Dec 2028

English Proficiency Test | LBI FIB UI Oct 2021 – Oct 2022
EPT Score (TOEFL Prediction): 520

SKILLS

- **Languages**: Bahasa Indonesia (Native), English (Intermediate)
- **Programming Languages**: Python (NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, PyTorch, Transformers), SQL (Aggregate Functions, Joins, Cases, CTE, Window Functions).
- **Tools**: Microsoft Word, Microsoft Powerpoint, Microsoft Excel (Look Up Functions, Pivot Table, Pivot Chart, Power Query), Git, GitHub, PowerBI (Basic DAX), Talend Open Studio for Data Integration.
- **Soft Skills**: Adaptive, Analytical Thinking, Eagerness, Problem Solving, Teamwork.
